

How to successfully master the upgrade of your integrated planning solution

Do not be afraid to upgrade your planning solutions!

Are you thinking about upgrading to SAP BW/4HANA and/or S/4HANA and are you wondering what will happen to your existing planning solutions?

We will show you, how you can manage the complexity and ensure a smooth transition to SAP BPC 11.x and/or SAP Analytics Cloud.

Our proven workshop format will prepare you and your team for the upcoming possibilities with the SAP planning solutions.

Interested?

We would be happy to discuss your individual requirements with you.
